What is a telecommunications enclosure?

Telecommunications enclosures are used in protecting electrical equipment in charge of transporting voice, video and other data for a number of industries. Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment.

Why do telecommunications companies need a custom enclosure?

Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment. Custom enclosures are often needed because installers constantly struggle to adapt off-the-shelf products to unusual requirements. Why Choose Bison ProFab?

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Who makes a telecom enclosure?
