What is the market share of large data centers?

Large data centers currently constitute about 59% of the Tier 3 segment, with major operators like Khazna Data Center holding a market share of nearly 20%, followed by Etihad Etisalat Company and Etisalat with market shares of 19% and 9% respectively.

Is a data center a highly efficient data center?

Further, a data center with a PUE of 1.2-1.5 is considered highly efficient, whereas, a data center with a PUE ≥ 2 is considered highly inefficient. It is defined as a system design wherein additional component (UPS, generators, CRAC) is added so that in case of power outage, equipment failure, the IT equipment should not be affected.

Which tiers are covered by data center size?

Large, Massive, Medium, Mega, Small are covered as segments by Data Center Size. Tier 1 and 2, Tier 3, Tier 4 are covered as segments by Tier Type. Non-Utilized, Utilized are covered as segments by Absorption. Israel, Saudi Arabia, United Arab Emirates are covered as segments by Country. Need A Different Region or Segment?

What is a data center UPS & how does it work?

The UPS primarily supports the IT equipment only. Just like UPS, generators are placed in the data center to ensure an uninterrupted power supply, avoiding downtime. Data center facilities have diesel generators and commonly, 48-hour diesel is stored in the facility to prevent disruption.

The Middle East data center rack market is dominated by the IT and telecommunications sector, which is being pushed by expanding 5G networks, cloud computing, and digital transformation programs in ...

The Middle East data center rack market reached value of around USD 2.1 million in previous year and it is further projected to grow and register a CAGR of 14.74%.

The Middle East Data Center Rack Market is witnessing steady growth, fueled by expanding digital infrastructure, increased cloud adoption, and the rising demand for hyperscale and colocation ...

Khazna Data Centers, Saudi Telecom Company (center3) and SDS Data Center rank among the leading data center operators by capacity across the Middle East. Saudi Arabia dominates the ...
