What is AC microgrid?

The enabling of ac microgrids in distribution networks allows delivering distributed power and providing grid support services during regular operation of the grid, as well as powering isolated...

Does Aze provide a dc48v / ac110v/60hz cabinet air conditioner?

AZE provides the DC48V enclosure air conditioners, AC110V/60Hz cabinet air conditioner and AC220V/50Hz air conditioner cooling for the outdoor enclosures, which can meet to customer's different power input. An undersized air conditioner will fail to adequately cool the cabinet.

What are electronic cabinet cooling systems?

Our electronic cabinet cooling systems are designed for use with a wide range of enclosures and transit cases. Models are available for both indoor and outdoor use in AC and DC power configurations. Coolers feature corrosion-resistant stainless steel construction.

> Standard and custom-designed enclosures for data centers, IT rooms, and enterprise networks. >  
Available in different sizes, load capacities, and airflow designs to optimize equipment performance.

According to the specific needs of the cabinet, choose the appropriate air conditioner type, such as semiconductor air conditioner or compressor air ...

The DC air conditioner is especially designed for telecom cabinet, battery cabinet, industrial control cabinet, with functions of auto cooling system for electronic equipment in reliable operation.

> Standard and custom-designed enclosures for data centers, IT rooms, and enterprise networks. >  
Available in different sizes, load capacities, and airflow ...

Recreen Energy offer all in one integrated industrial and commercial energy storage systems solution which are designed to provide reliable and cost-effective ...

The ultimate platform for energy and electrical products! Connect with trusted manufacturers & source high-quality products effortlessly. Request quotes, compare prices, and simplify your procurement.
