How much does a solar installation cost in New Zealand?

According to Energywise, a government-funded website that provides information on energy efficiency and renewable energy, the average cost of a residential solar installation in New Zealand ranges from \$10,000 to \$15,000.

How many solar panels do I need in New Zealand?

Figuring out how many solar panels you need for your home in New Zealand doesn't have to be a head-scratcher. It all comes down to your household's energy habits, roof space, and how much sunshine your area gets. Most Kiwi homes opt for systems between 4kW and 8kW, which translates to around 9 to 19 solar panels.
