What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What is an outdoor electrical enclosure?

Our outdoor electrical enclosures are designed and manufactured to provide a degree of protection against rain, sleet, snow, ice, dirt, and dust. This enclosure is suitable in a remote location where enclosure can withstand the toughest and wind and weather conditions, even unattended for a longer period of time.

What are the features of our enclosures?

Versatile installation features: Our enclosures have two universal wall and pole mounting brackets and an adjustable and removable back plate. This construction allows for smooth installation on various surfaces and integration of equipment inside or outside without drilling additional holes.

Where can cube outdoor enclosures be used?

Cell towers, business parks, campuses, data centers, strip malls, sports stadiums, oil fields, wind farms, solar fields, lift stations, utility sub stations and traffic systems all rely on our expansive line of industry-leading CUBE outdoor enclosures. As connectivity skyrockets, so does the cost of service interruptions.
