What services are included in a solar PV contract?

The services included by the contractor shall include operation and maintenance of all components of solar PV systems for the life of the contract, as detailed herein.

What is a solar RFP?

But first a few key definitions: A Request for Proposal (RFP) is a formal bid document to ask vendors to provide proposals for desired projects, as required by many public agencies (federal, state, local). A solar RFP outlines the photovoltaic (PV) product or service requirements, the contract terms, and bidding process.

Who determines the final content of a solar PV solicitation?

Agency contract officers, attorneys, and engineers are responsible for determining the final content of any solicitation. Updated to the regulations, codes, and standards applicable to solar PV are changing frequently; it is the responsibility of agency managers to determine which guidelines (and which versions) apply. Figure 1.

Do solar projects need an EPC contract?

In our experience, most utility-scale solar projects use an EPC Contract. An operation and maintenance agreement: This is usually a medium- to long-term Operating and Maintenance Agreement (O&M Agreement) with an Operator. The term of the O&M Agreement will vary from project to project.
