What services are included in a solar PV contract?

The services included by the contractor shall include operation and maintenance of all components of solar PV systems for the life of the contract, as detailed herein.

Can a contractor stop a PV system?

The Contractor may be ordered to stop work, or shut the systems down, if unsafe conditions or code violations are noted. The warranty holder or a roofing contractor certified by the roof manufacturer shall inspect the PV systems to ensure the integrity of the installation.

When can a contractor inspect a PV system?

The Government Contracting Officer or the delegated Contracting Officer's Representative may inspect the PV systems at any time during construction or after the PV systems have been put into operation. The Contractor may be ordered to stop work, or shut the systems down, if unsafe conditions or code violations are noted.

Who inspects a PV system?

The warranty holder or a roofing contractor certified by the roof manufacturer shall inspect the PV systems to ensure the integrity of the installation. To ensure compliance with provisions of the NEC, an inspection by a licensed electrical inspector is mandatory after construction is complete.
