Who makes electric vehicle charging stations & cabinets?

*Indicates a required field Dalsin Industries manufactures electric vehicle charging stations and cabinets for the ever-growing electric vehicle market. Call us today to get started on your next project!

What is an electric car charging station?

A charging station is a device that supplies electrical power to plug-in electric vehicles. An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE).

What are the components of an electric car charging station?

An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE). However, these components are vulnerable to moisture, extreme temperatures, ultraviolet light, dust, debris, and impact forces.
