Recycled electric vehicle (EV) batteries from automakers Nissan and Stellantis have found a second life powering a large-scale battery energy storage system (BESS) at Italy's largest international transport ...

Italy's largest energy storage system based on used batteries for electric vehicles was inaugurated on Tuesday at Rome's Fiumicino airport to ...

The system is fully linked with Fiumicino's newly operational "Solar Farm," Europe's largest airport-based self-consumption photovoltaic installation, which began generating power in January ...

Europe's largest airport solar-battery integration, boosting energy resilience and circular economy leadership. Rome's Fiumicino International Airport has launched Pioneer, ...

If you're searching for Rome battery factories, you're likely exploring energy storage solutions for industrial, commercial, or renewable energy projects. This guide breaks down Rome's key players, ...

Inaugurated on June 3, 2025, at Rome Fiumicino Airport, PIONEER is an energy storage system based on repurposed EV batteries.

Built by Enel and Aeroporti di Roma with the scientific support of the Fraunhofer Institute, Pioneer is the largest energy storage system in Italy based ...

Europe's largest airport solar-battery integration, boosting energy resilience and circular economy leadership. Rome's Fiumicino International Airport has launched Pioneer, Europe's largest ...
