Does Saudi Arabia have a procurement law?

Saudi Arabia's Procurement Law regulates all government procurement - including Ministry of Energy tenders. The Ministry of Finance is the overarching authority for the law and its implementation, and administers the procurement portal, Etimad (), which serves as a centralized repository for all government tenders.

How many solar and wind projects are there in Saudi Arabia?

Yet in just a few years, it has installed a series of solar and wind projects and committed to an even larger pipeline of planned developments. As of August, Saudi Arabia had at least 58.6 gigawatts of solar and wind projects either operational, under development, or officially tendered (including both grid-connected and off-grid installations).

How big is Saudi Arabia's power generation market?

According to Mordor Intelligence, the Saudi Arabia power generation market is expected to grow from 83 gigawatts in 2023 to 110.03 gigawatts by 2028, at a CAGR of 5.80% during the forecast period (2023-2028). The Ministry of Energy's spending on power and renewable energy projects is expected to reach \$293 billion by 2030.

Are there any renewables projects in Saudi Arabia before 2020?

Before 2020, there were only pilot renewables projects and rooftop solar systems put in place by entities such as the King Abdulaziz City for Science and Technology, the King Abdullah Petroleum Studies and Research Center, and Aramco.
