What are HVAC outdoor Telecom enclosures & cabinets?

AZE's HVAC outdoor telecom enclosures and cabinets are designed specifically to protect high density installations of network equipment in outdoor environments and are ideal for wireless, wireline, and utility and applications.

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Can a telecom cabinet operate without heating and cooling?

Although the most rugged types of telecom equipment can operate without heating and cooling, most outdoor telecom cabinets are designed to comply with the GR-3108-CORE Class 1 specification, which requires that the internal temperature of the cabinet is maintained between 41°F (5°C) and 104°F (40°C).

Each weatherproof outdoor enclosure is rated NEMA Type 3, 4, 5, or 6 and undergoes rigorous field testing to ensure reliability in demanding outdoor environments. Whether facing desert heat, arctic ...
