What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is a Purcell system outside plant enclosure?

Purcell Systems outside plant enclosures accommodate WiMAX wireless radios in durable equipment enclosures with options for surge protection, battery backup, power management, and complete climate control, for equipment deployments in indoor and outdoor environments.
