---

Our industrial-grade 48V230Ah sodium-ion battery cabinets offer extreme-temperature performance (-40° to 60°) with 8000+ cycles lifespan.

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process. Our Industrial and ...

The Blue Rack is the world's first sodium-ion battery cabinet designed for mission-critical applications such as data centers, peak power-shaving, and other industrial power environments.

Sodium ion batteries are next-generation energy storage products. How do they stack up against lithium ion batteries, the longtime consumer favorite?

High Reliability. 1 The sodium-ion battery module is equipped with a PACK-level fire-fighting module as standard, and a cabinet-level fire-fighting system is optional, which is safer and more reliable than ...

Designed for peak shaving, valley filling, and off-grid resilience, this 90kW/215kWh modular solution integrates cutting-edge LiFePO4 or Sodium-ion battery technology to ensure safety, longevity, and ...

The modular design of the sodium-ion battery is easy to replace, has high maintainability, and realizes the integration and miniaturization of higher power density

Scalable from Kw to multi-MW, the BlueRack(TM) 250 battery cabinet is a safe, high-powered solution you can count on. By employing breakthrough sodium-ion cells based on Prussian blue electrodes, the ...
