What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Are all telecommunications support systems the same?

Not all support solutions are the same, and Purcell understands that each telecommunications network requires a variety of support systems to meet your needs and your budget. Purcell makes the decision easy, by offering specially engineered families of standard, modular, and configurable equipment cabinets to fit every deployment scenario.
