What is a 47U server rack?

47U server racks and floor standing data cabinets from Server Room Environments are one of the largest available and are designed to provide a complete and secure protective enclosure system for servers, IoT, Edge computing and networking devices. The 47U rack range includes budget and premium models which can be tailored for site applications.

How do I choose a 47U rack or cabinet?

When selecting a rack or cabinet there are several factors to consider. A 47U rack or cabinet can house equipment whose total height when placed into the rack is no more than 2.09m. Care therefore has to be taken when selecting a rack to make sure that the cabinet height is sufficient to house the IT server, networking peripheral or IoT device.

What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?
