Independent power producer (IPP) Renalfa has commissioned a solar co-located 65MW/260MWh battery energy storage system (BESS) in ...

This section outlines key EU projects, initiatives, and market trends in energy storage, highlighting efforts to integrate renewables, enhance grid stability, and support the clean energy transition.

Eastern Europe is rapidly emerging as a strategic hotspot for grid-scale Battery Energy Storage Systems (BESS).

This year, Bulgaria is breaking storage records one after another. In May, it inaugurated the largest BESS in the entire European Union and now US investment fund ContourGlobal has ...

Hithium, a global leader in energy storage solutions, has announced the successful implementation of the largest BESS project in Eastern Europe.

Solarpro, a leading technological provider of solutions for the generation and storage of energy in Europe, has successfully deployed the ...

Europe is racing to add very large grid batteries to balance rising wind and solar output. As of mid-late 2025, four utility-scale Battery Energy Storage System (BESS) projects stand out by ...

Europe is racing to add very large grid batteries to balance rising wind and solar output. As of mid-late 2025, four utility-scale Battery Energy ...
