What are FM approved chemical storage buildings?

FM Approved Chemical Storage Buildings are structures that offer safe and compliant hazardous material storage solutions. They are available in lengths up to 52' and include a built-in compliant sump. Buildings are delivered by truck and require a fork lift or crane for removal, as well as properly engineered concrete pad for securing the unit.

Are Justrite pesticide storage cabinets NFPA approved?

These cabinets meet OSHA and NFPA and are FM approved. Justrite pesticide storage cabinets offer safe, secure storage of pesticides, herbicides, fertilizers, flammables and other turf chemicals. All cabinets meet NFPA and OSHA regulations and are FM-approved. Self-closing models also comply with IFC.

What is a flammable storage cabinet?

Safely store, vent solvents and other flammable liquids with the Protector(TM) Solvent Storage Cabinet. Sure-Grip(TM) EX Flammable Safety Cabinet protects workers, reduces fire risks, and improves worker productivity by allowing the storage of flammable fuels and chemicals in code-compliant, 18-gauge steel safety cabinets.

Are emergency response cabinets fire resistant?

Some emergency response cabinets are fire resistant and feature adjustable shelves. They can also be powder-coated in "emergency orange" for high visibility. Accessories like cabinet filters, additional shelves, locks, and SDS storage boxes are just a few of the products that can be added to enhance storage.
