What is a lithium ion cabinet?

A lithium-ion cabinet is a specialist storage solution designed to safely house lithium batteries. It offers fire-resistant construction, secure locking, and controlled ventilation to minimise the risk of fire, thermal runaway, or toxic gas release. What added value does a battery charging cabinet offer?

Are lithium-ion battery storage cabinets safe?

This range of Lithium-Ion battery storage cabinets from ESE Direct provides a safe solution for both storing and charging of lithium-ion batteries, all cabinets are certified to standard EN 14470-1 - 90 minute fire resistance, with automatic door closing, bottom collecting sump with a capacity of 33 litres, a fire suppression system and alarms.

What is a lithium-ion battery charging & storage cabinet?

lithium-ion battery charging and storage cabinet, fortified with ChargeGuard(TM) for ultimate protection. This state-of-the-art cabinet features multiple layers of advanced shielding, specifically designed to reduce the risks of battery fires and thermal runaway.

Why do you need a lithium-ion battery cabinet?

Improper storage of lithium-ion batteries can lead to fires and dangerous situations. That's why, at Fuel Tank Shop, we offer a comprehensive range of lithium-ion battery cabinets designed to safeguard your batteries and your workplace. Our cabinets are constructed with durable materials and innovative features to prioritise safety.

Browse our Lithium-ion Battery Cabinets Collection today and make the smart choice for secure battery storage. To discuss your Lithium-ion Cabinets requirements, please contact us at ...
