At 42U high it is perfect for medium to large scale server installations. Full 19-inch wide profiles, front and rear adjustable profile design with a thicker gauge design ...

PI Cabinets are designed to take approximately 300kg loads with heavy duty castors or adjustable feet. They can take up to 750kg if placed directly on the floor or on a plinth.

Start by measuring all the equipment that will be going into the cabinet - height, width and depth. Next, take the deepest (measuring front to back) piece of equipment and add at least 130mm to calculate ...
