Why is the EV industry growing in Cambodia?

The technologies required for battery production coupled with tax cuts for owning electric vehicles drive the growth of the EV industry across the world. Government support has been crucial to the growing adoption of electric vehicles. In the past year, the EV infrastructure in Cambodia began expanding, opening three new public charging stations.

How big is the electric car market in Cambodia?

The Cambodia Electric Car Market accounted for \$XX Billion in 2023 and is anticipated to reach \$XX Billion by 2030, registering a CAGR of XX% from 2024 to 2030. The Angkor EV, a locally built electric vehicle, is on exhibit in a dealership in Phnom Penh.

What is Angkor EV?

Cambodia's Heng Development Company has launched its first electric vehicle, the Angkor, named after the country's iconic ancient Angkor temples. The Angkor has a top speed of 60 km/h and a range of up to 300 km. Some of the Angkor EV's parts were built in Cambodia, while others were imported.

While Cambodians currently benefit from low-priced used vehicles imported from overseas, this comes at a huge environmental cost and will hinder the uptake of EVs. We ...
