Who makes electric vehicle charging stations & cabinets?

*Indicates a required field Dalsin Industries manufactures electric vehicle charging stations and cabinets for the ever-growing electric vehicle market. Call us today to get started on your next project!

What is an electric car charging station?

A charging station is a device that supplies electrical power to plug-in electric vehicles. An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE).

What are the components of an electric car charging station?

An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE). However, these components are vulnerable to moisture, extreme temperatures, ultraviolet light, dust, debris, and impact forces.

Are charging stations a one-size-fits-all?

When it comes to charging stations, there's no one-size-fits-all answer. Some applications need enclosures with specific sizes and shapes. Others need doors, wiring access ports, or locking mechanisms. We welcome OEMs with existing design blueprints and those still on the drawing board.

With our custom NEMA-rated metal cabinets, your charging stations will stand the test of time, enhancing your reputation and customer trust. Competitive pricing ...

Buy high-capacity charging station cabinets with USB-C ports for bulk orders starting at \$105. Ideal for electronic storage and multi-device charging.
