Zambia's Ministry of Energy has taken a significant step toward sustainable energy solutions by commissioning a 121.8kW rooftop ...

THE Ministry of Energy has commissioned a 122-kilowatt rooftop solar energy system worth K6.8 million aimed at reducing reliance on diesel generators and easing pressure on the ...

"Our target is to have at least 200 solar mini-grids operational by 2030, ensuring that every rural district in Zambia has access to clean, affordable, and reliable electricity," said Makozo Chikote, ...

The Zambia Electricity Supply Corporation (ZESCO) reported recently that the 100MW Chisamba solar project is set to come online by mid-2025; while 25MW of the 50MW Mansa solar ...

Zambia has ample year-round sunshine for the generation of solar power as shown in the map below. So why are rooftop solar systems not being actively encouraged in Zambia?

Energy-efficient lighting lamps, discharge lamps, solar batteries, and solar power inverters are all duty-free in Zambia. Eliminating taxes on essential components has greatly ...

The Zambia Electricity Supply Corporation (ZESCO) reported recently that the 100MW Chisamba solar project is set to come online by ...

Zambia's Ministry of Energy has taken a major leap toward sustainable power solutions by commissioning a 121.8kW rooftop solar photovoltaic (PV) system with 125kWh battery storage at ...
